Summary

🚀 Backend Developer | PHP | Laravel

Hello, I am an experienced backend developer with 2+ years of experience in building scalable web solutions. My skills include:
- PHP and LARAVEL: Designing efficient and dynamic applications.
- API Integration: Ensuring seamless system connectivity.
- MySQL: Managing secure and reliable databases.

I thrive on solving complex challenges with innovative and accurate solutions.

Work Experience

1. Restaurant Website:
Built a dynamic website with an admin dashboard to manage content, menu, and user accounts.

2. Flower Store:
Developed an e-commerce platform with product management, Stripe payments, and user features like cart and favorites.

3. Car Website:
Created a website for showcasing cars with admin tools for managing cars, testimonials, and categories.

4. Student Grades Portal:
Designed a portal for students to view grades securely and admins to manage grades efficiently.

5. Power Gym Website:
Developed a fitness platform with memberships, product purchases, cart, and subscription management.
